

Brandon Shiers
Senior RF Engineer/Senior Network Engineer
Wyoming.com
Riverton, WY

Biography: Mr. Shiers grew up in Meriden, Wyoming and graduated from Albin High School in 1999. After moving to Riverton to attend CWC's Computer Science program, he started working in the Technical Support department for Wyoming.com. After 2 semesters of college, Mr. Shiers took an opportunity to move full-time into a Network Engineer role with Wyoming.com. Since 2005 Mr. Shiers has also work with Wyoming.com's sister company Cerento as a Network Engineer.

In 2017, Mr. Shiers became the RF Engineer for Cerento and has since designed wireless networks in Wyoming, Colorado, North Dakota, Kansas, Oklahoma, New Mexico, and Texas.

Workshop: *Radio Frequency (RF) Fundamentals* – In an ever-connected world, RF is one of the biggest components in the backbone of communications networks. In this workshop, we'll cover some basic concepts of RF and discuss some duties of an RF Engineer. We'll also configure an Access Point and get communications through it to our devices.
