

Keith Holley
Ancillary Services Director
SageWest Health Care
Riverton, Wyoming

Biography: Keith graduated as a Radiologic Technologist from Baptist Medical Center. Keith has worked in both rural and academic teaching hospitals throughout his career. As a Radiologic Technologist, he has focused primarily on Interventional Radiology. For more than 15 years, Keith has served in a variety of leadership roles in hospital imaging departments, out-patient imaging centers, pharmacy, laboratory, respiratory therapy, sleep lab and cardiac rehab.

Workshop: *Patient Management and Keeping Everyone Safe in the Hospital* - Our SageWest team will be providing a case study of a patient who enters the hospital from hand hygiene with an interactive glow germ visual to the background information technology systems involved in the patient's electronic medical record and looking at the involved hardware. In addition, we will make a diagnosis of the patient and take lab and imaging tests. How does all that happen? Once the patient is diagnosed with their illness, how do the caregivers keep themselves safe with the personal protective equipment involving the procedure of putting on and removing personal protective equipment as caregivers of this patient.
