

**Nate Ahrens**

Construction Materials Tester (CMT) Inspector  
Inberg-Miller Engineers  
Riverton, Wyoming

**Biography:** Nate was born in Chehalis, Washington, grew up, and graduated from Riverton High School. He started working for Inberg-Miller Engineers right out of high school and worked his way to the position of Construction Materials Tester (CMT) Inspector through perseverance and self-drive. As a CMT, Nate encounters many certificates and responsibilities. He tests and inspect steel reinforced concrete, masonry walls, soils, asphalt, and concrete. He also works many Wyoming Department of Transportation (WYDOT) and Federal jobs.

**Workshop:** *Concrete Testing* – Nate will show you the procedures of testing under American Concrete Institute (ACI) certifications in this workshop. You will go through slump, temp, air, and casting cylinders while Nate explains why these tests are so critical to high strength concrete.
