

Roger Melton
Mathematics Professor
Central Wyoming College
Riverton, Wyoming

Biography: Roger Melton grew up in Torrington, Wyoming and attended Eastern Wyoming College before completing a Bachelor's degree from the University of Wyoming in mathematics education. After teaching in the Shoshoni School District for three years, he enrolled at Western Michigan University, where he received a Master of Arts degree in mathematics with additional studies at the University of Alaska, Webster College and Brigham Young University. Professor Melton spent the next 35 years teaching at St. Louis Community College and Central Wyoming College. Roger has presented numerous times for the National Council of Teachers of Math and leads many workshops in Fremont County for both students and teachers.

Workshop: *Let's use math to solve problems!* This workshop will present a variety of hands-on activities that will show how mathematics can be used as a powerful tool to solve very difficult problems with ease. You will experience how mathematics is truly the problem-solving language needed to be successful in fields of study, such as science, nursing, accounting, carpentry and many others.
