

Philip Beamer
Assistant Superintendent-Division III
Wyoming State Engineer's Office
Worland, Wyoming

Biography: Philip Beamer has been employed with the State Engineer's Office since 2010. He is currently the Assistant Superintendent for Division III, but prior to that he was a Hydrographer-Commissioner for Districts 6 and 12. He attended college at the University of Wyoming, taking several courses in engineering. Philip finally graduated from Black Hills State University in Spearfish, South Dakota.

Workshop: *Different Methods of Measuring Water* - This session will demonstrate and allow students to get a hands-on experience on how to measure water. We will be using a Hach sensor, AA meter, and our Sontek-ADCP equipment with demonstrations and hands-on tutorials.
