

Emily Baker
Forensic Specialist
Wyoming Division of Criminal
Investigation/Biology Unit
Cheyenne, Wyoming

Biography:

Workshop: *Crack the Case: Solve a Crime Like a Forensic Scientist* - Ever wondered how forensic scientists solve crimes? In this hands-on workshop, you'll step into the role of a forensic investigator and work through a case from start to finish. You will begin by collecting evidence at a simulated crime scene, then dive into forensic techniques like DNA extraction and toxicology testing to analyze evidence. You'll learn how science

plays a crucial role in solving mysteries and uncovering the truth. Come put your detective skills to the test and see if you can crack the case!
